

Funding Allocation Categories

Education/Prevention Category 25%

Universal Intervention

Activities that apply to everyone (whole populations) and result in reducing access to means, altering media coverage, providing community education about prevention, and creating stronger and more supportive families, schools, and communities.

Intervention & Treatment Category 25%

Selective Intervention

For communities and groups potentially at risk and result in building resilience, strength and capacity and an environment that promotes self-help and help-seeking and provides support.

Indicated Intervention

For individuals at high risk and result in building strength, resilience, local understanding, capacity, and support; being alert to early signs of risk and taking action to reduce problems and symptoms.

Symptom Identification

Activities that are appropriate when vulnerability and exposure to risk are high, which result in being alert to signs of high risk, adverse health effects and potential tipping points; and providing support and care.

Early Treatment

Activities for finding and accessing early care and support, which result in providing the first point of professional contact; targeted and integrated support and care; and monitoring and ensuring access to further information and care.

Standard Treatment

Activities that are appropriate when specialized care is needed and result in providing integrated professional care to manage behaviors and improve wellbeing as a step in recovery.

Justice Services/Support Category 25%

Longer-term Treatment and Support

Activities for preparing for a positive future, providing ongoing integrated care to consolidate recovery and reduce the risk of adverse health effects.

Ongoing Care & Support

Activities for 'getting back into life'...building strength, resilience, and adaptation and coping skills, and an environment that supports self-help and help-seeking.

Grant Administration & Coalition Management 25%
